### Details

Title:	H2020 (SC6-co-creation-2016-2): German IT company is looking for public administrations and IT service companies for successful H2020 project
POD Reference:	RDDE20170518001
Summary:	A German IT company is participating in a successfully funded Horizon 2020 project on the Once-Only Principle (OOP) in public administrations. The project has already started, but is looking for additional partners to be integrated in the wider project community. The project is looking for public administrations wishing to showcase their solutions or to learn from successful best practices and for IT service companies that can share experiences on chances and barriers to OOP.
Description:	<p>Many public administrations require their citizens to provide the same information every time they need administrative services. The Once-Only Principle (OOP) seeks to make sure that public administrations can re-use citizens' data, while respecting privacy and data protection rules, and thus make life easier for citizens by avoiding the need for continued data entry.</p> <p>The aim of this Horizon 2020-funded research project is to bring together practitioners from public administrations, researchers and the interested public in order to jointly advance the discussion about the Once-Only Principle. The project will contribute to effective knowledge transfer, knowledge sharing, and development of future solutions based on the OOP.</p> <p>The consortium currently consists of two IT companies, a university, a research centre and a think tank. As part of the project, a wider Stakeholder Community is currently being established. The project is seeking the following additional community partners to take part in this stakeholder community and thus contribute to the expert discussion on the Once-Only Principle:</p> <ol style="list-style-type: none"> <li>Public administrations that want to highlight best-practice cases in implementing or relying on the OOP.</li> <li>IT service companies that want to discuss opportunities and barriers to implementing the OOP.</li> </ol> <p>Partners in the stakeholder community will not receive any direct funding, but will have their travel costs reimbursed if they participate in project workshops and events across Europe.</p> <p>Partners in the stakeholder community also get access to restricted areas of the project website, where they can find a database of OOP cases and online discussions.</p> <p>The projects runs under the Horizon 2020 programme, and has a duration of 24 months.</p> <p>As the project is already funded, there is no call deadline. The deadline for Expressions of Interest is the end of the project duration, i.e. October 2018.</p>

**PROFILE**

**Company**  
**ZIVVER**

**Rick Goud**  
CEO at ZIVVER  
Amsterdam, Netherlands

**zilver**

ZIVVER provides a unique solution that finally makes secure mail, chat, file-transfer and e-health easy.

Digital communication between professionals and with patients is becoming increasingly important in healthcare. Around the world, e-mail is the preferred way of communication. However, with the GDPR coming up, organizations struggle with privacy and security challenges. e-mail is hard to secure, human errors, such as sending information to the wrong person, is the biggest cause of data leaks and weak passwords, lack of audit trails and poor privacy awareness is a challenge. Finally, existing 'secure' tools are very user unfriendly.

ZIVVER prevents human errors, ensures that only sender and recipients can read messages, allow recalling messages and identify mistakes. ZIVVER give organizations and users control, before, during and after sending information. We call that Triple Safe. ZIVVER has full integration in e-mail clients such as Outlook, but also has web and mobile apps. In addition we provide e-health possibilities, including for tele dermatology and -cardiology.

Since last year, over 300 organizations in the Netherlands, including over 90% of all Hospitals, Mental Care organizations and Local Governments, use ZIVVER as their primary secure communication solution.

[Information and communication technologies \(info health\) | ICT](#)

Registered on the 16 February 2018

**REQUEST**  
**Potential customers, partners and investors**

- Healthcare organizations in the broadest sense, in need for a way of security communicating with external stakeholders via email, file transfer, chat, that is easy, user friendly and helps to comply with upcoming GDPR application
- VCs for series A/Growth financing
- Possible partners/resellers interested in helping to make ZIVVER a great success in the UK

**SERVICE**  
**Secure e-health possibilities (e.g. Tele dermatology, -cardiology)**

On our platform we are also building additional tools for e-health including tele dermatology, tele ECG, etc.

Applies to ICT  
Consulting, Development

**SERVICE**  
**Secure e-mail, chat, file transfer and e-health platform**

The e-mail, chat and file transfer solution of ZIVVER fully integrates with most existing infrastructures, including Outlook, Office 365, but also have our own web applications and apps. Unique is that we do not only focus on encryption, but also on avoiding the human error, which is by

### Topic Description

Specific Challenge:

Digital manufacturing platforms play an increasing role in dealing with competitive pressures and incorporating new technologies, applications and services. Advances are needed in digital manufacturing platforms that integrate different technologies, make data from the shop floor and the supply network easily accessible, and allow for complementary applications. The challenge is to fully exploit new concepts and technologies that allow manufacturing companies (especially mid-caps and SMEs) to fulfil the demands from changing supply and value networks.

# NCP Flanders – www.ncpflanders.be

The screenshot shows a web browser window with several tabs open. The active tab is 'Home | NCP flanders'. The address bar shows 'https://www.ncpflanders.be'. The website header includes the logo 'NCP FLANDERS' with the tagline 'Horizon 2020 guidance' and a navigation menu with 'Home', 'Our Team', 'News', 'Events', and a 'LOGIN' button. The main content area features a large banner with the title 'Horizon 2020 guidance' and a paragraph of text. To the right of the text is an image of four glowing lightbulbs with the words 'support', 'advice', 'assistance', and 'guidance' written inside them. Below the banner are four columns of text, each with a heading: 'General Horizon 2020', 'Funding by Horizon 2020 programme', 'Other EU funding', and 'Horizon 2020 guidance in Flanders'. The Windows taskbar is visible at the bottom, showing various application icons and the system clock displaying 11:56 on 12/12/2018.

## Horizon 2020 guidance

Horizon 2020 is the European Union's Framework Programme for Research and Innovation till 2020. National Contact Points have been established as information hatches between the European Commission and the stakeholders. For Flemish stakeholders NCP Flanders is the contact point, consisting of and supported by the advisors of FWO (Research Foundation Flanders) and Flanders Innovation & Entrepreneurship.

### General Horizon 2020

Horizon 2020 is the European Union's Framework Programme for Research and Innovation. Running from 2014 until 2020 with a budget of about €77 billion, Horizon 2020 is the biggest multinational research programme in the world. It funds research in all areas of science and innovation. Workprogrammes 2018 - 2020. Update 10/9/2018 available on Horizon 2020 info

### Funding by Horizon 2020 programme

The core of the Horizon 2020 programme consists mainly of 3 pillars: Excellent Science, Industrial Leadership and Societal Challenges. Next to other programmes as Spreading excellence and Widening participation and Science with and for Society, the Joint Research Center is also highlighted. See our introductory presentations to find out what's in it for you!

### Other EU funding

Besides Horizon 2020 there are many other relevant funding programmes managed by several agencies and directorates of the European Commission.

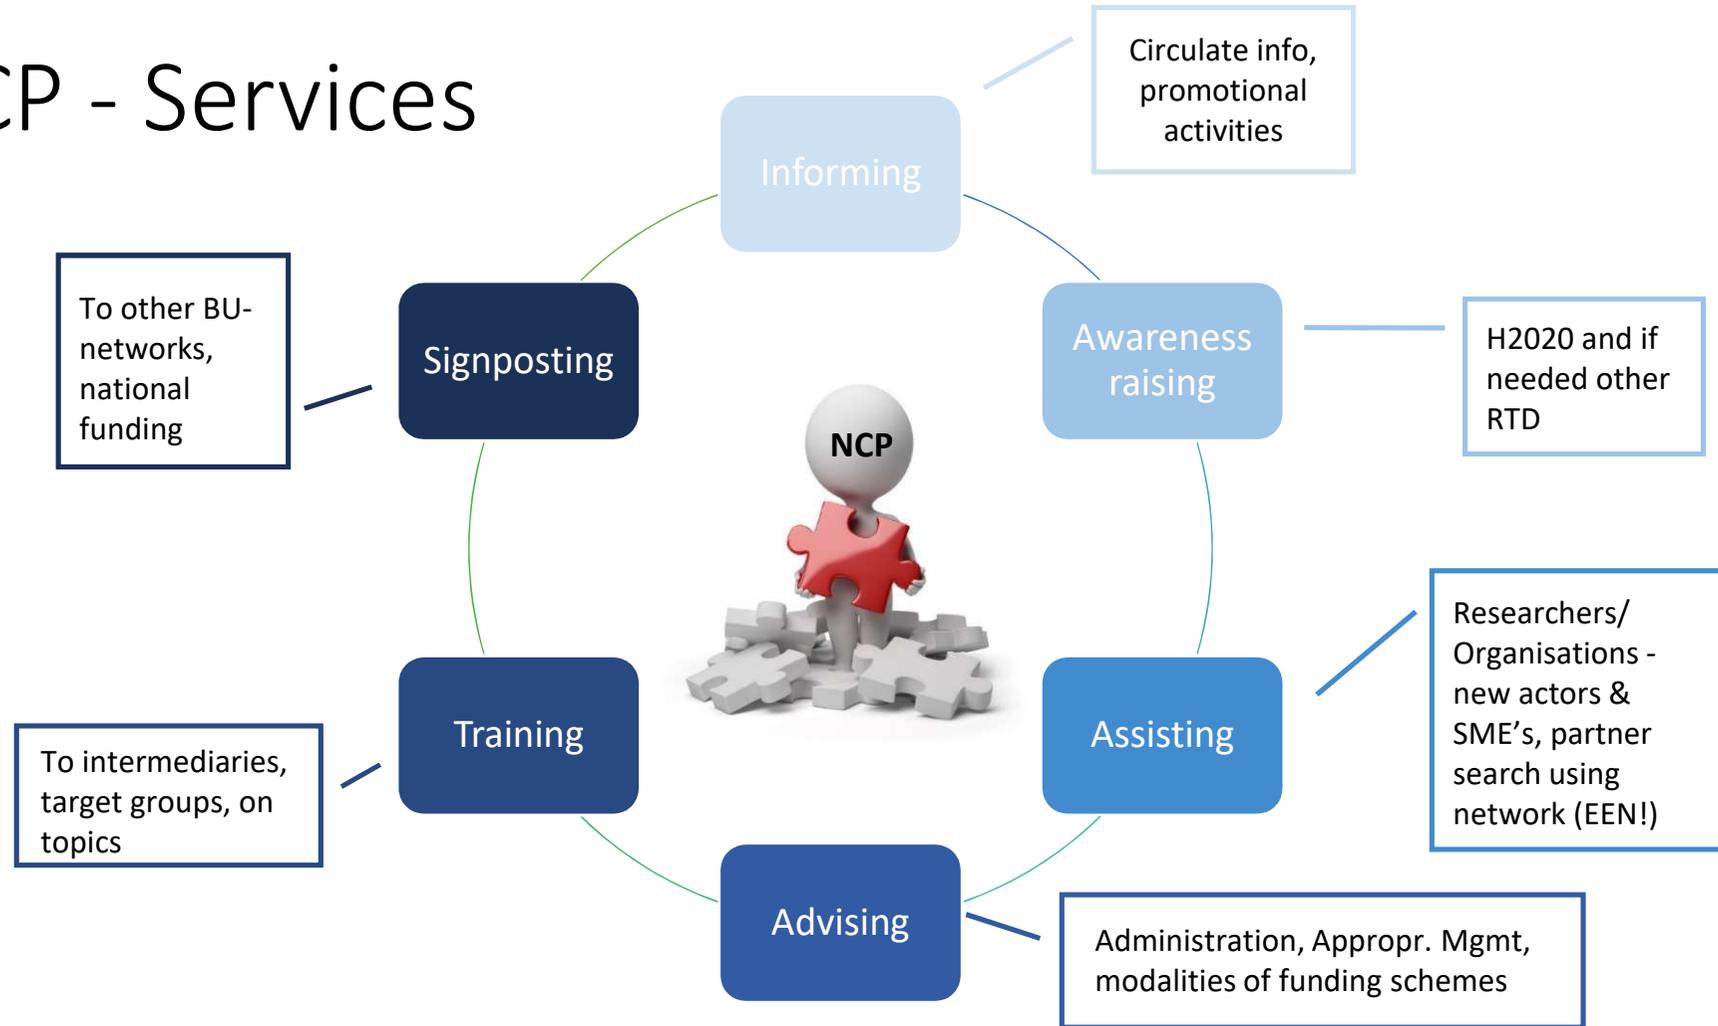

### Horizon 2020 guidance in Flanders

National Contact Point Flanders (NCP Flanders) acts as the information hatch between the European Commission and the stakeholders regarding the Horizon
